The carrels in the library are good places to study, or relax while looking at a magazine.

I wonder if I should ask that question?

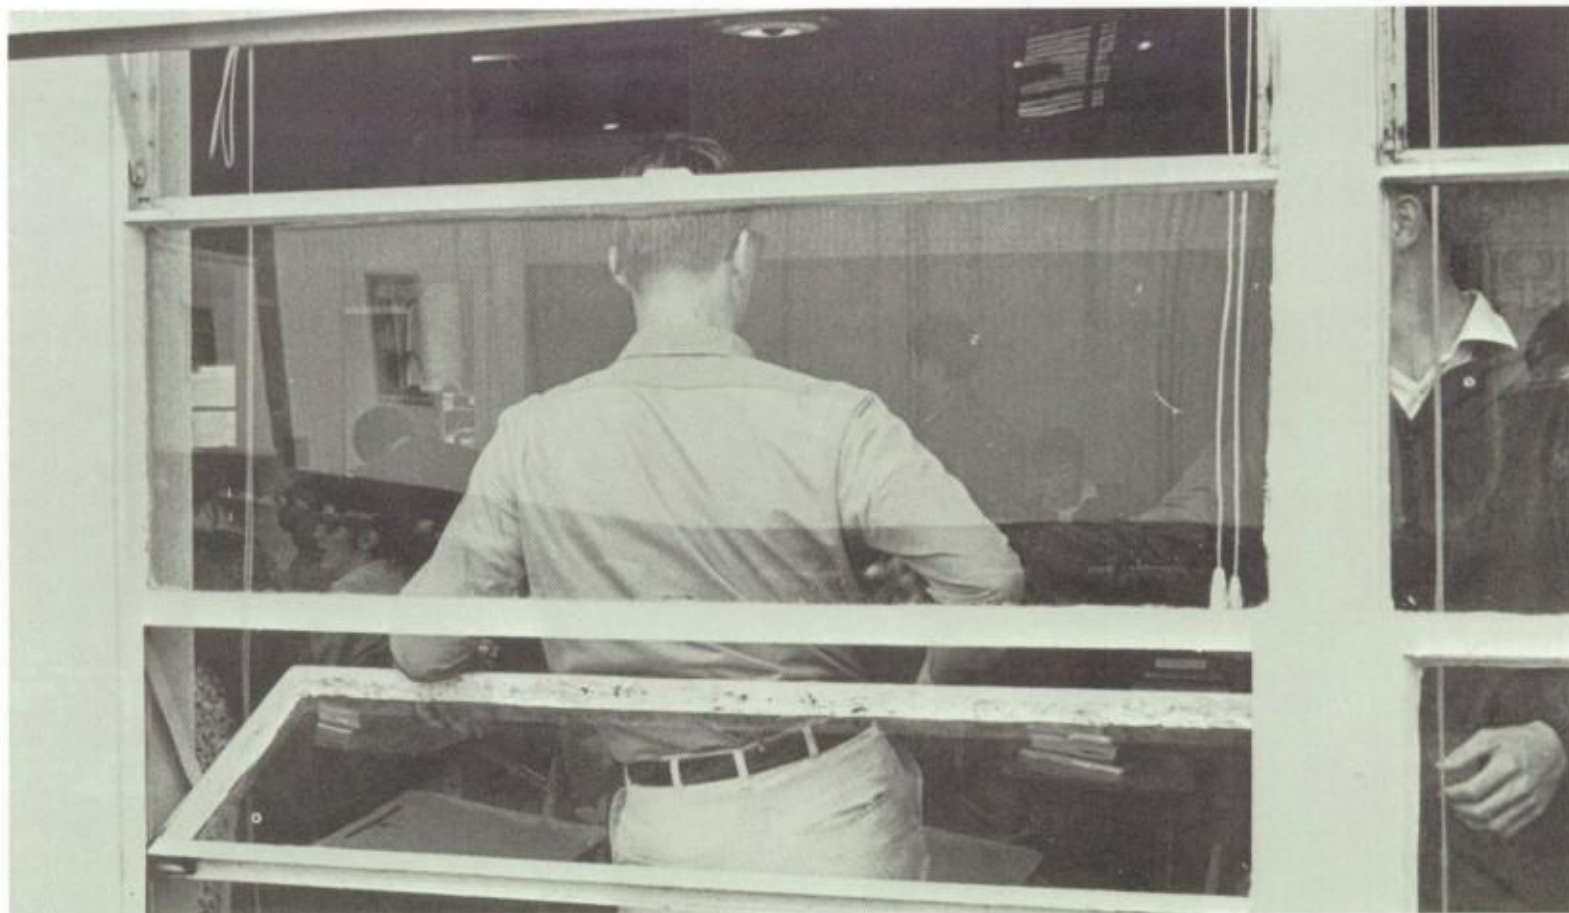

While waiting to see Miss Pearson, one can observe Mr. Roberts' history class.

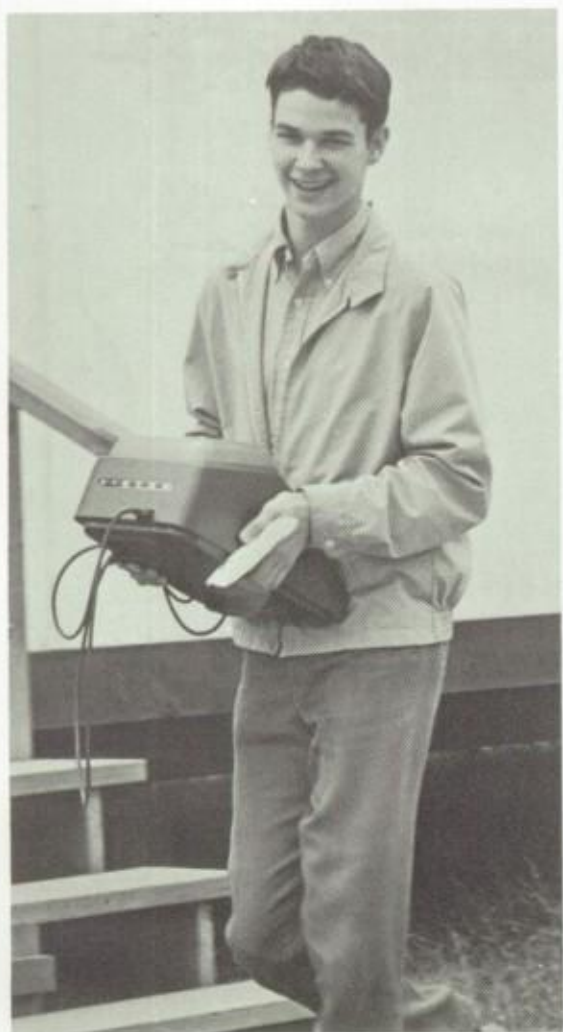

Wish I could think of that answer!

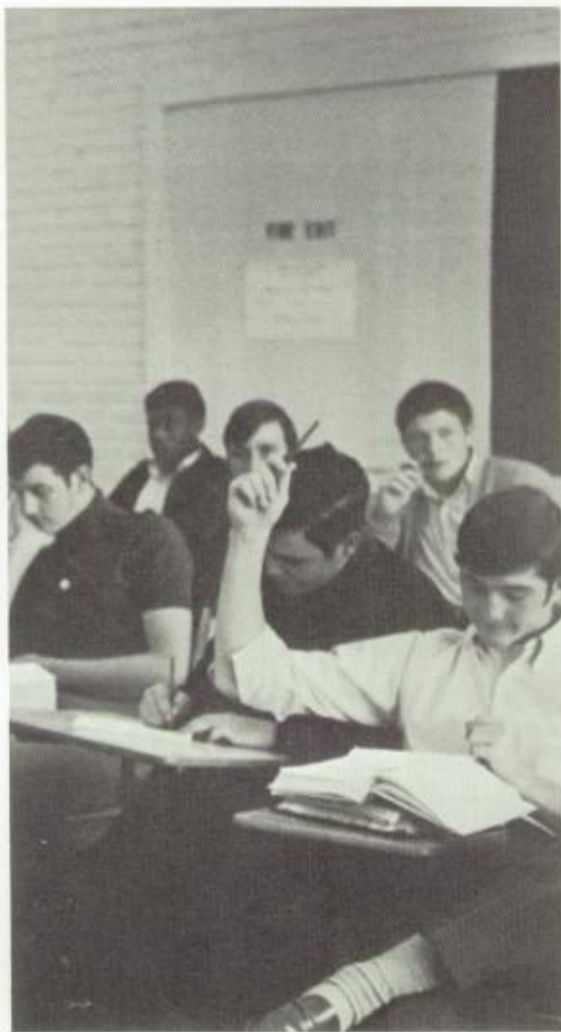

Working in the library always keeps you busy.

Bedlam is . . . the absence of a teacher.

Billy Phillips enjoys time out of class while doing an errand for a teacher.

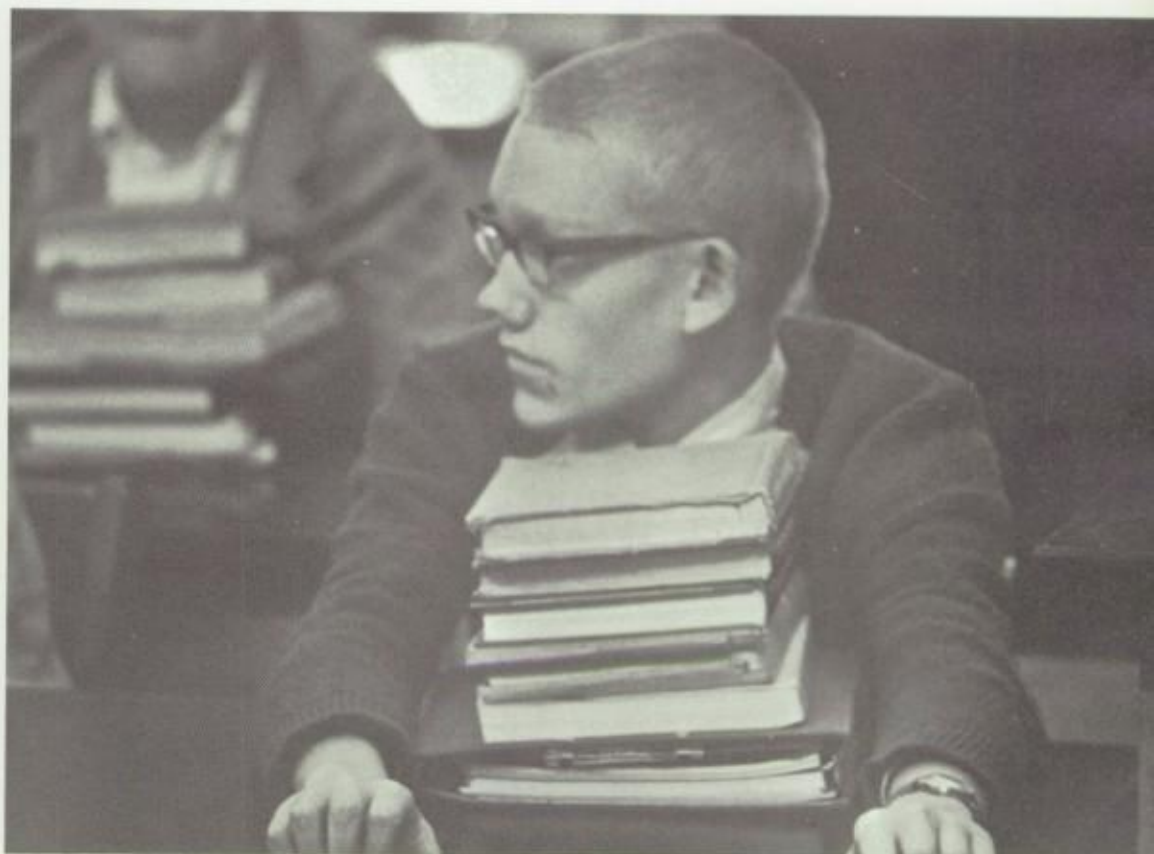

"Would you work that problem on the board?"

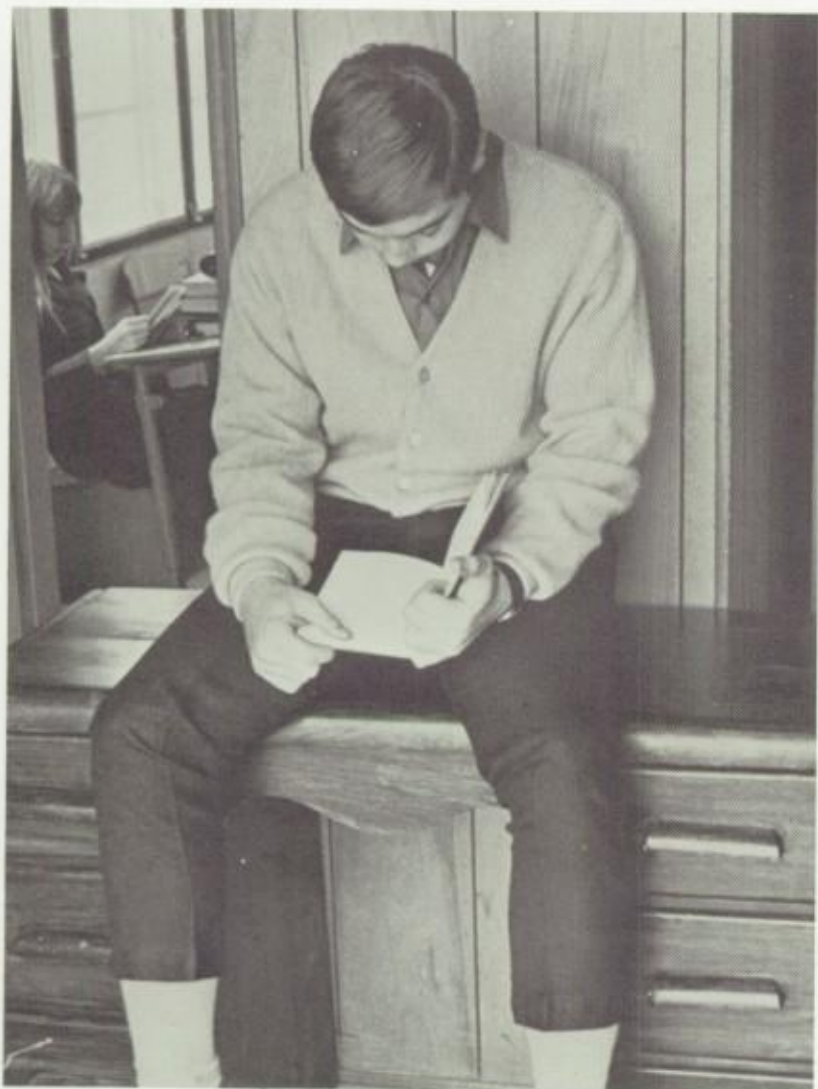

A daily bulletin is read during second period by Billie Culler.

Sparks fly as Charlie Moore sharpens a tool in industrial arts class.

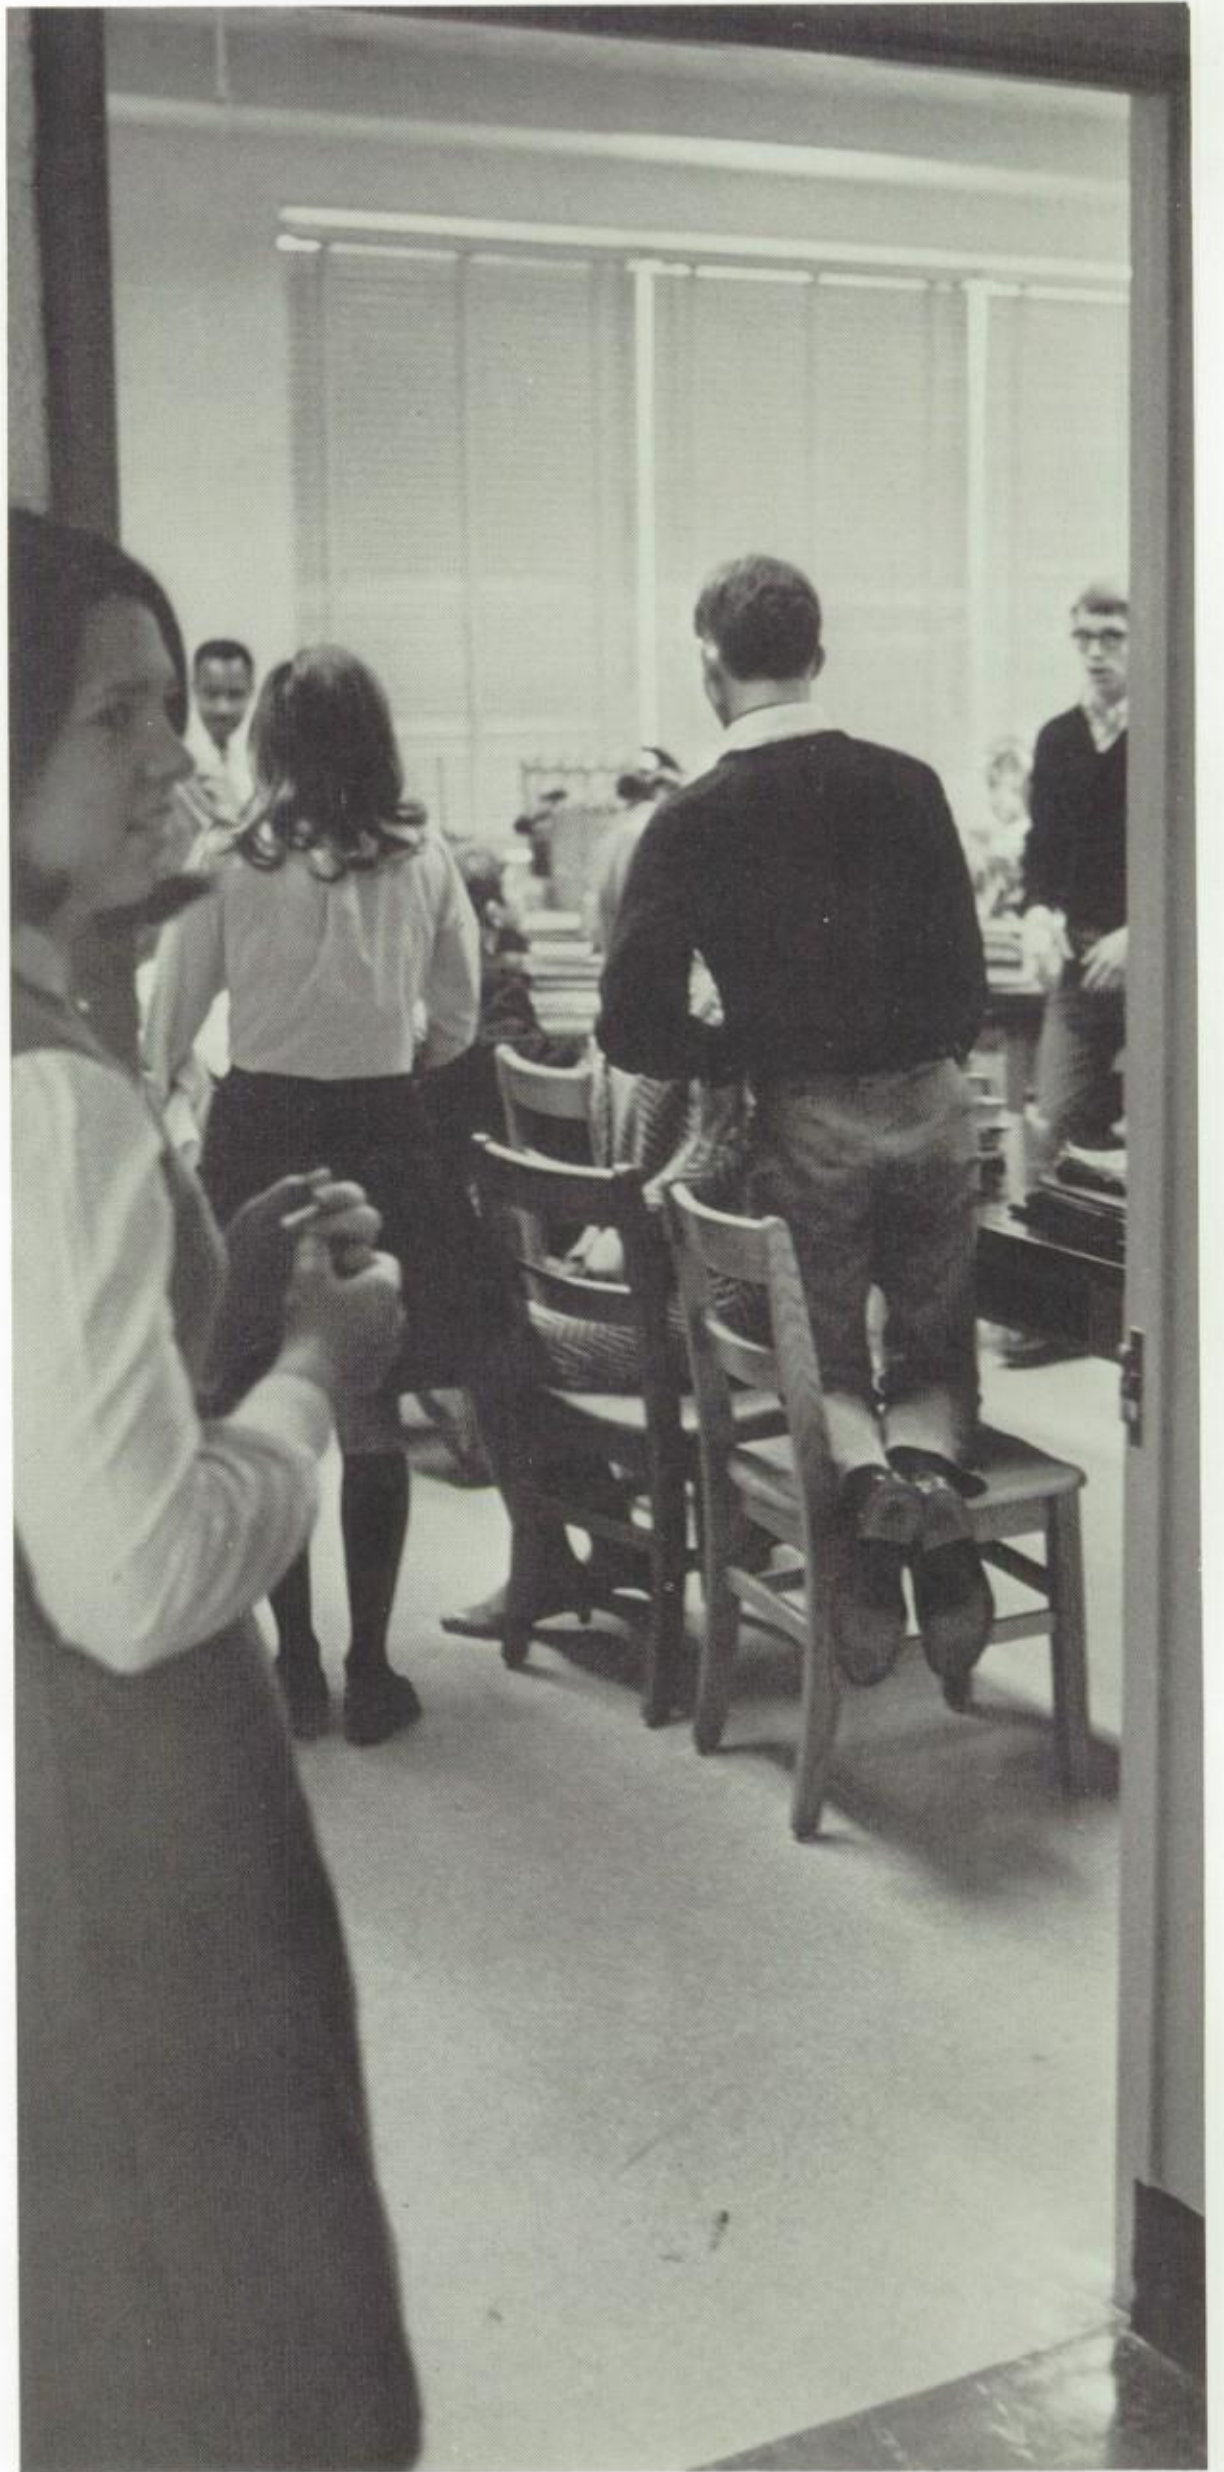

Freshmen like Joey Souther eagerly await the 2:50 dismissal bell.

In a crowded study hall Terry Jackson finds some elbow room.

Sharon Sine, Jon Berrong, Willie Underwood, and Rikki Wright, enjoy a meal prepared in family living class.

**This is why electric service bills
were lower 30 years ago.**

Then, Piedmont Carolinians used about one-tenth the electricity they do now as they enjoy over 160 appliances that contribute to carefree living. But today, for a

home served by Duke Power, the average cost per kilowatt hour is about half what it was 30 years ago. That's why we say electricity is today's biggest value.

The Year of the Eagle—It's been a good year filled with victories and defeats, times for fun and times for study. This book is the product of an effort made to capture this year at Wilkes Central. As this year ends and you close this chapter of your life, my sincere hope is that this book will remain in your possession as a reminder of your year here—1969-'70.
